Hi Kathy,

At their February meeting the Trustees voted to pass along their recommendations for changes to the sections of the City Charter that apply to them. So, here goes (suggested changes are in red).

1. Recommendation to change text in section 6-12 (d) 2 to say: To make all reasonable rules and regulations for the operation and management of the library in consultation with the Mayor *and the Library Trustees*.
2. Recommendation to change text in section 6-12 2 (e) to say: ....Responsibility for the ordinary maintenance of library buildings and grounds *has been* transferred to a City Central Maintenance Department by ordinance adopted by City Council.

They voted on #2 before the City Council decided to move Central Maintenance under DPW, so the language in that paragraph may need to change even more.

Thanks!

Ellen
